- Certificate for Web Designing & Dev

UNIATHENA

- Certificate for Basics of Data Science
- Certificate for Master ChatGPT

LANGUAGES

- Tamil
- English

PROFILE

Motivated and detail-oriented aspiring data scientist with a strong foundation in data analytics, artificial intelligence, and Python programming. Gained hands-on experience in analyzing datasets and drawing actionable insights. Proficient in tools such as Microsoft Excel, Python (Pandas, NumPy, Matplotlib), and HTML. Also experienced in developing web and mobile applications, combining technical and analytical skills to solve real-world problems. Passionate about leveraging data to drive smart, evidence-based decisions and contribute to forward-thinking teams.

INTERNSHIP EXPERIENCE

Innolift Ventures Pvt. Ltd.

ON GOING

Flutter App Development & Full Stack technologies

- Built cross-platform mobile apps using Flutter, Dart, and Firebase with RESTful API integration and responsive UI.
- Worked in an Agile team, using Git/GitHub for version control and participating in code reviews.

AICTE, Shell India Markets Pvt. Ltd. and Edunet Foundation

1 Month

AI and Data Analytics with a focus on Green Skills

- Completed internship on AI, Data Analytics, and Green Skills under the Skills4Future program.
- Gained hands-on experience in data preprocessing, model building, and visualization using Python.

Prompt Infotech

AUG 2024

Web Designing & Development

- Learned HTML, CSS, JavaScript, UI/UX design, and backend development with PHP.
- Built interactive and responsive web pages, gaining practical experience in web design principles and full stack development basics.

PROJECT

Weather App

Flutter + API Integration + UI/UX

- Developed a beautiful weather forecasting app using Flutter with real-time weather updates via API integration.
- Features clean UI, location-based weather, temperature, humidity, and wind info, offering an intuitive user experience.

Employee Attendance App

Flutter + Firebase + Google Maps API

- Developed a location-based employee attendance system using Flutter, Firebase, and Google Maps API.
- Features geofencing, real-time location validation, secure login, and attendance history tracking for both employees and admins.

Eduspack - E-Learning & Student Engagement App

Flutter + Firebase

- Contributed to the development of the Login Page, implementing Firebase Authentication for secure user sign-in and signup functionality.
- Built the Learning Page with clean UI, course listing, and responsive design for a smooth user experience.
